Combined graduation exercises were held on Wednesday evening, June 14, 1944 at the Town Hall. Eleven pupils received certificates following appropriate exercises presented by the graduates, under the direction of the teachers. Those who completed the eighth grade were:

No. 1 School	No. 2 School
June Bruce	Paulina M. Hall
Morrison School	Pauline E. Hall
Virginia N. Beckley	Harry J. Tufts
Bernard E. Ellis	Armand P. Dupere
Margaret A. LaPorte	Betty L. Thayer
Forrest H. Pratt	
William E. Phillips	

Personnel

The district has been fortunate in the continued services of several of the experienced staff of former years.

The resignations of Mrs. Harriet Cross and Miss Elizabeth Thomas were accepted with regret.

Mrs. Ethel Scott was secured for No. 1 Mrs. Scott had several years successful experience and returned to the work in 1943 on a more permanent basis.

Miss Mabel Kendall, a graduate of Keene with two years experience, was secured to replace Mrs. Cross. She, however, was assigned to No. 8 school and Mrs. Guinesso took No. 7 school.

The district has thus been able to secure the services of experienced teachers or teachers who are adequately trained as replacements. With Mrs. Bailey, Mrs. Guinesso, Misses Macaulay, Valeska and Patterson returning the instruction has been maintained at a high level.

Administration

The board continued to keep the physical plant in good condition. No. 8 reconditioning was completed. The floors in all buildings were treated. No. 1 had walls and ceilings

painted. The usual cleaning was done at all schools. The exterior of the buildings are in some cases beginning to need paint. The interiors have been reconditioned in the last two years. Labor shortages prevented some needed shingling but as a general observation the physical plant is in good repair.

Books and Supplies

The same general policy has been followed in connection with the purchase of books. Supplementary copies of texts in use have been purchased and in some cases replacements have been made. The basal reading program has been extended to include all the schools so that until the seventh grade, where the emphasis is on literature the pupils have a continuous program with difficulties of reading introduced in accord with pupil progress.

There were some sets of social science texts introduced in various schools. Some of the music books have been replaced and a beginning made in replacing arithmetics.

The greatest difficulty in connection with books has been the paper supply. Publishers have been faced with the necessity of keeping within prescribed quotas and as a result deliveries have been considerably slower than normal.

In anticipation of just such a situation orders for supplies were placed earlier than usual and thus far we have not had any shortage in any essential teaching material.

The seats in most of the schools are in need of replacement by modern seating arrangements. The lack of availability of certain types of material precludes the possibility of making the necessary purchases at the present time but it is a demand which should be kept constantly in mind.

The future also will present a problem of additional centralization of school facilities. The problem of teachers for rural schools is and will continue to be a serious one. With the existing conditions teachers prefer single or two graded rooms and the supply will continue to be short. Since the

teacher is the main factor in providing an adequate education for the child conditions may arise which will hasten the centralization of school facilities on a state wide basis.

Budget

The estimated budget shows an overall increase of \$784.11. Increased salary costs are responsible for the bulk of the increase. This plus increased transportation cost shows increases of nearly a thousand dollars. Decreases in other items reduce the amount of the budgetary estimate.

The tax levy is increased by \$2,998.59. This increase is due to the decrease in estimated income of \$2,314.48. As was explained in last years report increased state aid had built up the district available cash to the point where a \$3,500.00 cash on hand item would be applied against budgetary estimates with a corresponding decrease in tax levy. Since the estimated cash on hand is now only \$1,000.00 the increased tax levy is understandable.

The only factor which is in doubt is the amount of state aid. This is included at last years figure but legislative action can change the amount payable to the district. This situation is not unique for it occurs every year that the legislature is in session.

Conclusion

The town has been fortunate to secure and hold teachers of the calibre of the present staff. The situation is serious and is having two observable results. The salary scale is being forced upward by the diminishing supply of teachers and available teachers in addition are refusing to consider positions of the usual rural type. This, in turn, necessitates an adjustment in our schools to meet the situation. If the condition continues as seems probable, the question of consolidation of school facilities will be present.

That the work of your schools has continued at its present

level is due to many factors. The cooperation of parents, teachers, and school officials has contributed greatly to the work of the schools and has assisted me in the discharge of my duties. I appreciate the fine spirit of friendliness and sense of civic duty and pride which has made the work so pleasant.

Respectfully submitted,

EVERTON H. PARKINSON,

Superintendent.
